

**OHIO DENTAL OUTREACH**  
**PARENT ROBO-CALL SCRIPT**

Hi! I'm calling with some important news about your child's health!

Our school has arranged for Ohio Dental Outreach to provide your child with dental care right at our school. Best of all, there may be no cost to you if your child is on Medicaid or Healthy Start - Healthy Families.

Permission forms were sent home today.

By having your child seen by the dentist at school, you can keep them healthy, in school, and learning. Plus, it's easy and convenient for you.

Simply fill out and sign the permission form and return it to the school with your child or go to [www.myschooldentist.com](http://www.myschooldentist.com).

If you need a permission form, please contact the school today.
